

AS350 AVIONICS SWITCH CONSOLE AND ELECTRICAL SYSTEM

P132

THE PREFERRED SYSTEM UPGRADE FOR LAW ENFORCEMENT

For over 16 years the P132 Avionics Console has been the preferred Upgrade by Airborne Law Enforcement Professionals for the AS350.

- Improved Electrical System Reliability. Say goodbye to intermittent push button switches and fuses. All switches and circuit breakers are rugged MIL-STD type for reliable service.
- 20 Mil-Spec sealed toggle switches replace push-buttons.
- Up to 60 Mil-Spec circuit breakers replace fuses.
- Increased Avionics space allows 10.4" of Avionics and Radios within convenient reach of the pilot.
- Great ergonomics for busy cockpits.
- Easy changeable switch legends are LED backlit and may be changed quickly as your configuration changes over the years of reliable service you will enjoy with this product.
- Internal dimmer power supply and control allows independent dimming of the console to any desired level for maximum crew comfort during night operations.
- Night Vision compatibility option available.
- Circuit breaker legends are customizable and easy to change.
- Comes with mating cannon plugs making installation and implementation of changes quick and easy.
- Each console is delivered fully assembled and wired to your mission specific needs.
- Users can easily customize the console in the field to suit installation variations.
- Works with aircraft's existing electrical system including the latest Multibloc (B3e variant) system wiring.
- Custom layout and wiring optionally available
- Lightweight Aluminum Structure comes with a durable powder-coated finish.
